Mr. John R. Morgan, President
Morgan & Edklund
8745 U.S. Hwy 1
Wabasso, FL 32970

Dear Mr. Morgan:

As a member of the Environmental Studies Council, I would appreciate your support of our Annual Kitchen Tour. Your support through a sponsorship or advertising will assist the Council in continuing its long-time support of the Environmental Studies Center in Jensen Beach.

Since 1978 the Environmental Studies Council, in partnership with the Martin County School system, has provided supplemental funding, built outdoor classrooms, purchased needed equipment for teachers, to provide environmental education programs that have benefited over 100,000 school children from kindergarten through 7th grades. These children represent the future stewardship and preservation of our estuaries, beaches and oceans for generations to come.

Our Kitchen Tour is Saturday, March 18, 2006. The Tour attracts over 700 visitors each year who have the opportunity to tour six of Martin County's most exclusive homes, focusing on their unique kitchens – from Sailfish Point to Sewalls Point, from Jensen Beach to Stuart.

This year we are broadening our fundraising capabilities and I look forward to your support of our Kitchen Tour fundraising efforts with a sponsorship or advertising for our program Tour Booklet. Please find advertising and sponsorship guidelines for our Tour booklet on the attached sheets.

I look forward to your support of this important fundraising event.

Sincerely,

Doug Smith
Martin County Commissioner
District 1
DS/ac

Encl.
