### **SB 832 Implementation of the Recommendations of the Blue-Green Algae Task Force**

- Requiring periodic inspection of onsite sewage treatment and disposal systems (OSTDS) that are not required to have an operating permit. The bill directs the Department of Environmental Protection (DEP) to administer an OSTDS inspection program and to adopt rules that include the following:
  - A schedule for a five-year inspection cycle;
  - A county-by-county implementation plan phased in over a ten-year period, with priority given to those areas within a priority focus area for springs;
  - Minimum standards for a functioning system;
  - Requirements for the pump-out or repair of a failing system; and
  - Enforcement procedures for an owner's failure to obtain an inspection of the system or a contractor's failure to timely report inspection results to DEP and the system owner.
- The bill also requires basin management action plans (BMAPs) to include a prioritized list of spatially focused suites of projects in areas likely to yield maximum pollutant reductions. Each project with a total cost exceeding \$1 million must be monitored to determine if it is working to reduce nutrient pollution or water use, or both, as intended. The bill requires the monitoring assessments to be completed expeditiously and included in each BMAP update.
- **Progress:**
  - Favorable vote in Senate Environment and Natural Resources
  - Now in Appropriations Subcommittee on Agriculture, Environment and General Govt.
