## **Water Heater PHOTO Affidavit Inspection**

Below is a list of the required photos needed for the affidavit inspection.

- Required clearance as described by the manufacturer.
- Temperature and Pressure Relief valve termination to insure height and pipe diameter requirements are met.
- Located in a Garage- show that water heater is protected from vehicle damage. (Barrier, etc.)
- Include manufacturer's label with a picture of the breaker panels showing water heater is labeled.
- Picture of location of water heater with emergency pan (if required).
