

ANNUAL TIRE RECYCLE MANIA

WHY RECYCLE TIRES?

Mosquitoes love to use old discarded tires to lay their eggs in. A single tire can produce hundreds of mosquitoes!

HOW DO I PARTICIPATE?

Martin County is hosting a tire drive in April in an effort to encourage residents to recycle tires. This is done annually to reduce mosquito breeding sites while it is still relatively dry and also to celebrate Earth Day.

COUNTY RESIDENTS CAN RECYCLE UP TO 10 TIRES PER FAMILY FOR FREE AT THE FOLLOWING LOCATIONS AND TIMES:
