<input type="checkbox"/> Florida Energy Code for Bldg. Constr.	(If adding living space) - Form 402-7th Edition (2020) (Current version). This form is usually prepared, signed and dated by the Architect/Engineer of record or the A/C Contractor.	Form 402-20
<input type="checkbox"/> Manual "J" Form	<p>West Palm Beach area (dry bulb: summer 91 degrees/winter 45 degrees). Must show equipment size and type. This form is usually prepared, signed and dated by the Architect/Engineer of record or the A/C Contractor.</p> <p>As you might imagine, energy efficiency is an important consideration in a living environment and is strictly governed by the State of Florida in the form of Building Code requirements. These requirements range from prescribing minimum equipment ratings, materials, construction practices, etc., and are specifically governed by Chapters 13 of the Florida Building Code and 11 of the Florida Residential Code governing energy efficiency. These forms are intended to demonstrate compliance with the energy efficiency criteria and the Building Department highly recommends that you seek professional assistance through the services of a qualified Architect, Engineer or H.V.A.C. Contractor in completing these forms when they are specifically required for your particular construction project.</p>
