OVERVIEW

Now that each CRA area's Capital Improvement Program – enhanced streetscapes, stormwater, water and sewer infrastructure, roadway improvements and the construction of new neighborhoods – is progressing, the Agency would like to introduce an additional strategy to continue the CRA's successful redevelopment journey.

The attraction of new businesses, retention of current operating businesses, assistance to struggling businesses and encouragement of private investment are important components of a robust and overall redevelopment strategy. These programs may be amended from time to time to address evolving strategies at various stages in the redevelopment process.
