Repair or addition – riprap or living shoreline features	\$210

OTHER FEES	
Environmental Inspection associated with building permit	\$70
Re-Inspection	\$100
Review of other permits	Hourly rate

1. A pre-application submittal and review is required for all proposed structural hardening. Not all properties will qualify for structural hardening. The pre-application review fee will be applied towards a structural permit fee for sites that qualify for structural hardening. Additional Building Department construction permits are required for retaining walls and seawalls.
2. A separate application is not required to GMD. Residential Land Clearing Page is submitted and reviewed with the building permit application.
3. Alteration of the size, shape, or design of a previously approved preserve requires final approval by the Board of County Commissioners.
4. If not available, signs can be provided by owner/contractor. Alternative sign designs will require Martin County Growth Management Division approval prior to posting.
